About IFAS

Established in October 2022, following the introduction of strangulation and suffocation as a standalone offence in the Domestic Abuse Act (2021). Funded by the Home Office and sitting within the Faculty of Forensic & Legal Medicine, IFAS is the UK's centre for expertise on the forensic medical aspects of non-fatal strangulation. With our partners SafeLives, we conduct research, develop guidance, and train professionals to support victims and survivors.
